Fashion Trends

Fashion can be found all over the world, and is expressed through clothes, hairstyles, tattoos, piercing and even the way we drive.

It is a way for people to look different, modern or simply look like everybody else. However, are fashions really new? Take make-up for example. Make-up is used all over the world, but it isn't new. It was used - even by men - over 5,000 years ago!

Tattoos come in and out of fashion all the time. The word comes from the Tahitian *tatu*, which means to mark something. For many tribes, tattoos have always had an important role in their tradition.

Body piercing has become a popular fashion these days, but again, it wasn't invented recently. When some African and South American tribes were first discovered centuries ago, they were found with bones through their noses and their lips. Now in the modern world, it is just a trend in fashion.

1. How can fashion be expressed?
2. Why do people follow fashion?
3. Where does the word tattoo come from and what does it mean?
4. What do modern people think of body piercing?
