

A. Reading Comprehension

The Mediterranean Sea lies between three continents: Africa, Europe and Asia.

1. **It's one of the saltiest seas in the world.**

It's the habitat of many different species of plants and animals, and it forms a complete ecosystem.

2. Unfortunately, people are destroying it.

Adults and children leave their rubbish behind on the beach and destroy the environment. Perhaps they don't know that the plastic bottle takes 450 years to disappear, and an aluminium can 250-500 years! Pollution is a great threat to nature.

Thomas: Ecosystem, Leo. It means all the living things in an area, and the way they affect each other and the environment.

Read the texts and answer the questions

1. Which continents have coasts on the Mediterranean Sea?
2. What is an ecosystem?
3. How do people pollute the environment? (about 30-40 words)
4. What should people do to protect sea water from pollution? (about 20-30 words)

( 10 marks)
